Grass Hut's Grand Opening Invites Residents of Westdale To Support Local Business

The Grass Hut, which is the first cannabis retailer in Hamilton's Westdale area, will have its grand opening, at 1023 King Street West. The grand opening is slated to be held on Saturday, the 5th of December at 10AM local time.

According to the store management, the opening will showcase local cannabis producer Steel City Green. Staff from Steel City Green will be on hand to inform and educate both new and experienced cannabis users on their strains available for purchase: HiFi 4G, Glueberry OG and Lemon Ziddy. Information will be shared with visitors in person while observing recommended social distancing rules, and requests for information will be answered by questions posted on Facebook, Instagram and Twitter by direct message.

Visitors are encouraged to use City of Hamilton parking that has offered Pre-Christmas free parking and enjoy the restaurants and coffee shops of the area. People who are within walking distance of McMaster University and Churchill Park are asked to use easy access public transit or walk in to ask questions to either Steel City Green or any of the trained staff, while respecting social distancing guidelines.

More information can be found on the website <https://grasshutco.com>

This will be a 19+ event.
